Phone LExington 4762-3-4-5

FACTORIES: OSHKOSH, WIS. and DULUTH, MINN.

# TO THE TRADE

## Guarantee

In the manufacture of Radford Millwork the closest possible attention is given to the selection of material and the quality of workmanship. We guarantee it to give complete satisfaction provided it is properly handled after it leaves our possession, and carefully installed.

Unpainted millwork should never be stored or installed in any place where the atmosphere has a high-moisture content, as, for instance, in a freshly plastered building.

The top and bottom edges of doors should always be adequately painted or primed after fitting, and all millwork should be painted or finished promptly upon installation.

We cannot entertain claims for replacement or repair of any alleged defective material if the foregoing precautions are not observed, and under no circumstances do we obligate ourselves to pay any costs of finishing or installation of millwork which has been replaced.

## STOCK SIZES

All sizes listed in this Bulletin are carried in stock at Baltimore. Sizes not listed are not stock and require extra time and labor to manufacture.

## HALF WINDOWS

Attention is directed to the fact that we do not accept orders for Top or Bottom Sash only of Double Hung Windows.

## FREIGHT ALLOWANCE

We allow freight on all shipments weighing 200 pounds or more, except where special mention is made to the contrary. Freight is allowed on basis of rates in effect at date of quotation or acceptance of order. We do not allow any Government tax that may be assessed on freight bills or charges. All freight bills must be returned to this office within sixty days after shipment has been made, or we cannot allow credit.

## DAMAGE IN TRANSIT

Any damage in transit is properly chargeable to the transportation companies and can be collected from them providing proper notation of damage is made on the expense bill by your agent. However, we are always ready to assist our customers by filing claims and crediting actual amounts collected to the customers when paid by the transportation companies.

## RETURNED GOODS

Goods to be returned for credit will be accepted only under the following conditions:

Authorization must first be secured from us.

Goods must be returned within 60 days of date of purchase and must be in salable condition.

Return freight and bundling charges will be deducted from amount credited. Credit will be given for amount at which goods was originally purchased, less 10% to cover handling, etc.

We cannot authorize the return of shutters with cut-outs in panels, set-up frames or units, windows plowed for balances.

Non-stock items may not be returned under any circumstances.

## TERMS

Less than carload: 2% discount if paid not later than the 10th of month following date of shipment or net 30 days after 1st of month following shipment.

Glass: 1% if paid within 10 days from date of invoice or 30 days net.

If shipment is freight allowed, deduct freight before taking cash discount.

Interest at 6% will be charged on all past due accounts.

No reversal of charges for telephone calls can be allowed.

# ECONOMY WINDOW UNIT

A COMPLETE DOUBLE HUNG WINDOW UNIT FOR ALL TYPES OF WALL CONSTRUCTION

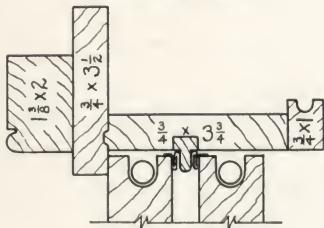

FURNISHED AS A UNIT MADE UP OF THE FOLLOWING PARTS  
COMPLETELY ASSEMBLED

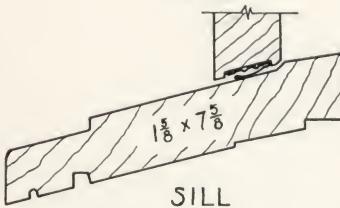

HEAD

CHECK RAIL

JAMB

SILL

## FRAME

Clear Grade Pine . . . Toxic Treated . . . No Pockets or Pulleys . . . Designed for use in all types of walls . . . Jamb Width adjustable by means of the removable Inside Liner . . . Popular Exterior Moulding permits the use of 1 3/8" Blinds or Shutters . . . Wide Wind-Break for weather-tight installation . . . One-Piece Sill for simplicity and leak resistance . . . 2 3/4" Mullions and lack of Pockets permit Narrow Moulding Effects.

## WINDOW

Regular 1 3/8" Check Rail Windows . . . Glazed SSB . . . #1 W. P. Pine . . . Pre-fitted . . . Toxic Treated.

## BALANCES

Offered in two equally efficient types:  
Unique Window Balance, Type D  
Grand Rapids Invisible Sash Balance  
For complete information, see page 13.

## WEATHERSTRIPS

"MetaLane"\*\* Weatherstrip Equipment #428 . . . Interlocking side members full length of run for both sash . . . Aluminum Alloy with a hard, smooth, glass-like surface sealed with a permanent lubricant that makes it an ideal frictionless metal . . . High resistance to oxidizing, discoloring and corrosion . . . Not affected by salt atmosphere, coal smoke or alkalies.

When sheathing is applied before frames are set, be sure to allow for the Wind-Break.

\* "MetaLane" is a Trade-Mark Reg. U. S. Pat. Office, property of Monarch Metal Weatherstrip Corp., all rights reserved.

Type D, per set. . . . . \$2.25

For Windows up to and including 3'-8 $\frac{3}{4}$ " wide and 5'-6 $\frac{1}{4}$ " high—For larger sizes, prices upon application.

In preparing Windows for Unique Balances, groove each sash  $\frac{5}{8}$ " wide x  $\frac{5}{8}$ " deep down center of edge, full length on each side, provided sash is prefitted. If sash is not prefitted, groove  $\frac{5}{8}$ " wide x  $\frac{3}{4}$ " deep.

For Grooving our Stock Windows as above, add per window. . . . . \$0.30

## GRAND RAPIDS INVISIBLE SASH BALANCE

No tube or tape shows. . . . Painting of frame simplified. . . . Easily installed.

Set consists of 4 balances per window.

Price per Set. . . . . \$2.10

For windows up to and including 4'-4 $\frac{1}{2}$ " wide and 5'-6 $\frac{1}{4}$ " high. For larger sizes, price upon application.

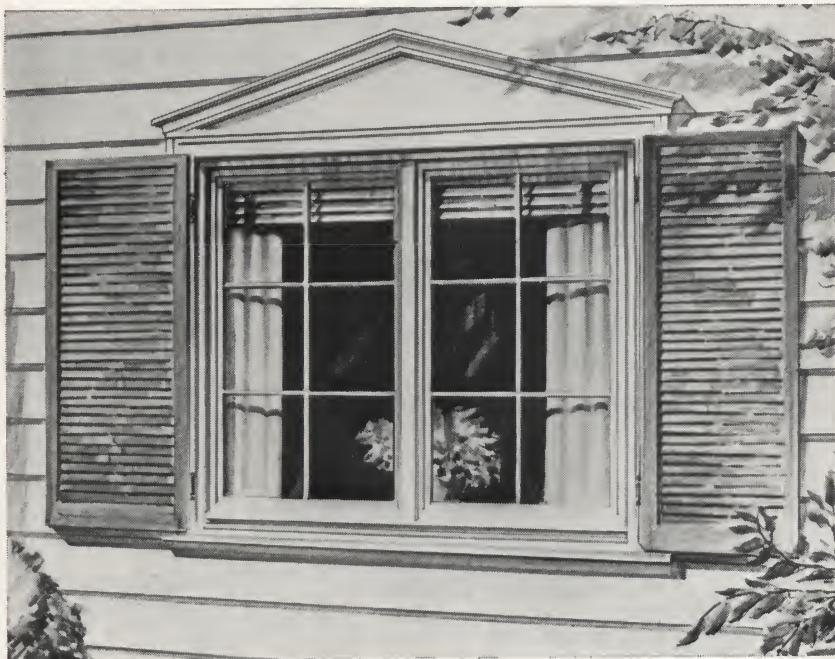

To prepare windows for Grand Rapids Invisible Balance, groove each sash  $\frac{5}{8}$ " wide x  $\frac{3}{4}$ " deep down center of edge, full length on each side, provided sash is prefitted. If sash is not prefitted, groove  $\frac{5}{8}$ " wide x  $\frac{13}{16}$ " deep.

For grooving our stock windows as above, add per window. . . . . \$0.30

## ANDERSEN HORIZONTAL GLIDING UNITS

A COMPLETE HORIZONTAL GLIDING WINDOW UNIT FOR ALL TYPES  
OF FRAME OR MASONRY WALL CONSTRUCTION.

### INCLUDING

Frame . . . Locked Sill Joints . . . Sash . . . Factory Fitted . . . Toxic Treated . . . Glazed SSA . . . Glass Bedded in Putty . . . Silver Seal Weatherstrips . . . Hardware . . . Inside Stops . . . Screens . . . Removable Double Glazing . . . Adjusted . . . Ready to Install.

The Andersen Horizontal Gliding Unit is the answer to the modern trend towards wider window openings and is suitable for all types of architecture.

The Unit resembles a casement window when closed with two sash standing in the same plane. The sash glide past each other when open and ventilation is like a casement, in the same volume as a double hung. Complete ventilation can be obtained by the easy removal of both sash.

The three-way lock not only locks the sash securely at head, sill and center, but also tightly closes the sash so that the efficient Silver Seal Weatherstripping makes positive contact all around.

Andersen Horizontal Gliding Units are made of clear pine, and all wood parts are protected against decay, termites and moisture with Chemical Preservative Treatment.

# ANDERSEN

## HORIZONTAL GLIDING UNITS

### OUTSTANDING FEATURES

**QUICKLY INSTALLED** — Frame is set in wall. Temporary sill track holds sash in place. When job is ready for interior trim, the permanent head and sill tracks and side stops are quickly installed.

**WEATHERTIGHT** — Air leakage tests show this window is tighter than a good weatherstripped double hung window. Condensation tests show that the outside double glazing is exceptionally efficient.

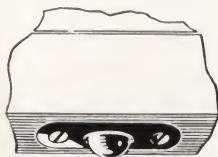

**SASH REMOVED FOR EASY CLEANING** — Sash are easily and quickly removed from the inside, without tools, by simply lifting up and swinging out at the bottom. To replace just reverse the operation.

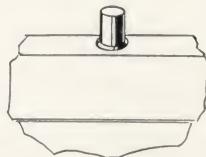

**REMOVABLE DOUBLE GLAZING** — Attached to the outer face of sash with special fasteners. Easily removed for cleaning from inside of building. Can be left in place the year 'round.

### OPERATING SIMPLICITY

The sash glide on these steel glides in the sill track.

The sash are guided by these steel guides in the head track.

Two steel glides are fastened to the bottom of each sash. These glide smoothly in the grooves in hardwood sill track. At the top each sash has two steel guides that operate in the head track. Compression springs hold these guides snugly in place and permit easy removal and replacing of the sash. That is all the operating equipment required besides the simple three-way lock installed in one of the sash.

## ANDERSEN CASEMENT UNITS

A COMPLETE CASEMENT UNIT FOR ALL TYPES OF FRAME OR  
MASONRY WALL CONSTRUCTION

### INCLUDING

Frame . . . Locked Sill Joints . . . Sash . . . Factory Fitted . . . Toxic Treated Glazed SSA . . . Glass Bedded in Putty . . . Silver Seal Weatherstrips . . . Hardware Screens . . . Removable Double Glazing . . . Adjusted . . . Ready to Install

The outswinging Andersen Casement Window is the first casement to successfully combine the weathertightness of wood construction with the simple, narrow-line beauty of metal. The classic lines of Andersen Casements blend harmoniously with any type of architecture and lend distinction to any interior.

Because of their exceptional weathertightness, Andersen Wood Casements meet the exacting requirements of ideal air conditioning and winter heating. Special frame construction stops air leakage around sash and frame, and insures weathertight joining with wall in either wood frame or masonry construction. Removable double glazing reduces heat loss through the glass 60%. These features mean year 'round comfort, freedom from dust and dirt and substantial fuel savings.

Andersen Casements are made of clear pine, and all wood parts are protected against decay, termites and moisture with Chemical Preservative Treatment.

## CASEMENT UNITS

DISTINCTIVE HARDWARE FEATURES

*(Left)*

**EXTENSION HINGES** permit easy cleaning of outside glass from the inside.

*(Right)*

**ROTO-GEAR SASH OPERATOR** has solid bronze handle and case. Adjusts and automatically locks sash in any position. Powerful and easy to operate. Independent of screen. Does not interfere with drapes, shades or Venetian Blinds.

*(Left)*

**REMOVABLE DOUBLE GLAZING** (storm sash) is easily and quickly slipped in place or removed for cleaning or storing. Inside screen removed same easy way.

*(Right)*

**SASH LOCK** pulls the sash completely shut and locks it securely when closed without opening or removing the screen. Also forcibly ejects the sash when opened.

*(Below)*

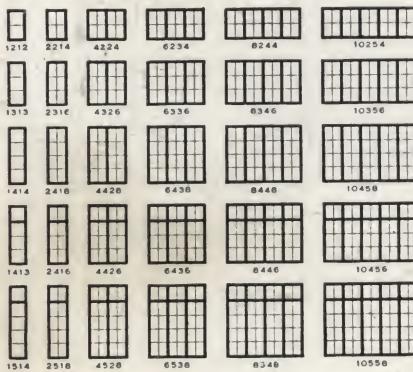

**BAR SASH OPERATOR** is bronze finish over cadmium plating. Works easily and smoothly. Holds sash securely in any position. A very satisfactory low priced operator.

### DETAIL OF COMPLETE UNIT—

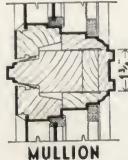

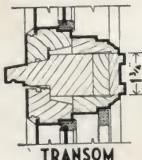

Details show installation of standard  
frame in typical frame wall.

Head and sill sections show wood  
siding exterior, with extension jambs  
on interior.

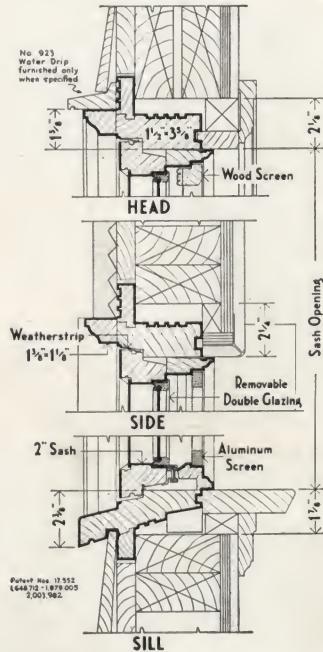

Jamb section shows stucco exterior,  
with plaster return on interior.

This same frame is used for all types  
of wall construction with suitable ex-  
tension jambs, or with plaster return.

Finish moulding with screen rabbet  
shown in sill detail is for swinging sash  
only. For stationary sash the same  
moulding as shown at head and jamb  
is used at the sill.

When sheathing is applied before frames  
are set, be sure to allow for the Wind-  
Break.

## ANDERSEN NARROLINE UNITS

A COMPLETE DOUBLE HUNG WINDOW UNIT FOR ALL TYPES OF  
FRAME OR MASONRY WALL CONSTRUCTION

### INCLUDING

Frame . . . Locked Sill Joints . . . Sash . . . Factory Fitted . . . Toxic Treated . . . Glazed SSA . . . Glass Bedded in Putty . . . Silver Seal Weatherstrips . . . Flat Sash Weights . . . Noiseless Sash Pulleys . . . Galvanized Sash Chains . . . Ready to Install.

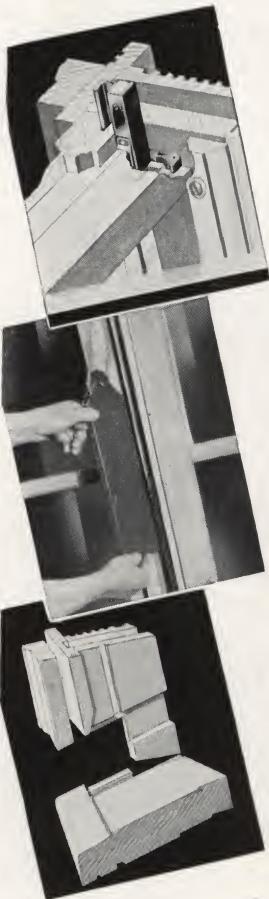

The Narroline Double Hung Window is furnished as a complete window unit with prefinished sash. It is distinguished by modern, narrow mullions and casings and retains the time-tested counterbalancing principle with specially designed weights to insure a lifetime of dependable and trouble-free sash operation.

The Narroline is effectively weatherstripped with Silver Seal Weatherstrips. Special frame construction insures weathertight joining with wall in either wood frame or masonry construction. With these features the Narroline meets the exacting requirements of ideal air conditioning and winter heating.

Andersen Narroline Units are made of clear pine, and all wood parts are protected against decay, termites and moisture with Chemical Preservative Treatment.

# ANDERSEN NARROLINE UNITS

## DISTINCTIVE FEATURES

### WINDOW

1½ Inches thick. Glazed SSA Bedded in Putty. Improved construction eliminates exposed end wood at bottom rail. The sash are milled for weatherstrip ribs and are furnished with check rail and bottom rail weatherstrips installed.

### WEATHERSTRIPPED

Maximum weathertightness and easy sash operation are assured by new duplex action Silver-Seal Weatherstrips (patent pending). They are made of strong, attractive aluminum alloy, electro-chemically treated to give a permanently lubricated glass-like surface.

### COUNTERBALANCED

The time-tested principle of counterbalancing is retained to insure a lifetime of trouble-free sash operation. The special flat weights permit modern narrow mullions and trim. Counterbalancing equipment includes the weights, sash chain cut to length and Andersen Noiseless Pulleys installed in the frame.

### LEAKPROOF

Andersen Leakproof Locked Sill Joint with steep sill slope and chamfered blind stop to insure quick drainage, and the weathertight wide wind-break, make the Narroline frames leakproof.

### IMPROVED FRAME DESIGN

Inside casing can be as narrow as 2½ inches without any blocking or other special preparation. The wide wind-break permits the use of exterior moulding or casings of any desired width.

The WIDE WIND-BREAK completely closes and seals the opening between frame and wall in the only sure and dependable way in frame, stucco and brick veneer walls. Mortar clinch grooves are provided for weathertight installation in masonry walls. These features are essential to complete wall insulation and mean added fuel economy and home comfort.

## ANDERSEN ALL PURPOSE WINDOW FRAMES

FOR ALL TYPES OF FRAME OR MASONRY WALL CONSTRUCTION  
LEAKPROOF AND WEATHERTIGHT

For  $1\frac{3}{8}$ " Check Rail Windows. Pockets cut and screwed in. Noiseless waterproof pulleys screwed in.

Drip Cap, Parting Strips and Inside Liner nailed.

Andersen All Purpose Window Frame No. 621 with Wind-break, Combination Exterior Moulding and Removable Inside Liner is adaptable for any type of wall.

The alterations listed below suggest a few methods of adapting the All Purpose Frame for various types of wall construction.

Other conversions will appear evident, or will be suggested upon receipt of complete wall information.

Adjustments can be made by us, when specified, or can be accomplished by the dealer or at the job. See opposite page for extras if work is done by us.

---

**FRAME WALL**—See detail on opposite page for normal use, no alterations required.

**FRAME WALL WITH  $\frac{1}{2}$ " SHEATHING**—Wind-break is rabbeted in back and Jambs are reduced in width.

**BRICK VENEER WALL WITH WIND-BREAK OUTSIDE OF SHEATHING FORMING  $\frac{3}{4}$ " AIR SPACE**—Drip Cap is removed and Extension Jambs are applied.

**BRICK WALL WITH FURRING**—Drip Cap is removed and Full Box is formed by adding  $\frac{3}{4}" \times 3\frac{1}{2}"$  Inside Liner and  $\frac{1}{2}" \times 4\frac{1}{2}"$  Back Liner.

**STUCCO WALL**—Exterior Moulding is rabbeted thickness of stucco and lath.

**PLANK TYPE (STONE OR SQUARE BLOCK WALL)**—Drip Cap is removed and Full Box is formed by adding  $\frac{3}{4}" \times 3\frac{1}{2}"$  Inside Liner and  $\frac{1}{2}" \times 4\frac{1}{2}"$  Back Liner. Wind-break is ripped flush with box and Auxiliary Moulding is added to Exterior Moulding.

---

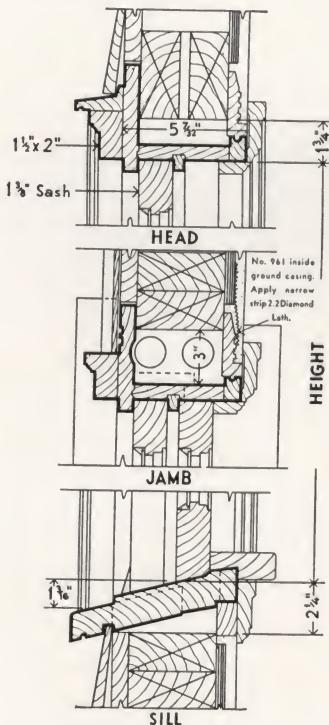

When sheathing is applied before frames are set, be sure to allow for the Wind-break.

## EXTRAS

If furnished Set-Up, Main Sill Included, Add..... \$0.68  
 Mullion Frames—Double Single Price, and Add..... .42

Can be furnished for Brick Building with Stock Brick Mould, instead of outside casing. Any size other than those listed above can be furnished promptly—Price upon application.

## ANDERSEN BASEMENT WINDOWS

A COMPLETE UNIT TOXIC TREATED

**The Complete Unit Includes:**

**Frame**—Clear Pine, Completely Set-up.

**Sash**—Glazed S.S., Fitted and Hung in Frame.

**Weatherstrips**—factory applied.

**Screen**—18-Mesh Bronze Wire, Fitted and Installed in Frame.

**Hardware**—Automatic Hardware, Cadmium Plated and applied.

Automatic sash hardware holds the sash in two open positions securely and without rattling. Cam lock holds sash tightly in closed position and automatically ejects the sash for easy operation. The sash hinges permit easy removal of the sash from frame when desired without the use of tools.

Screen is held in place with fasteners on the inside.

Ready to set in wall—Carton packed.

3-Light Glass Sizes	Price, Each Complete	Masonry Opening Sizes
8 x 12	\$5.21	2- 5 1/4 x 1- 5 3/8
9 x 10	5.31	2- 8 1/4 x 1- 3 3/8
18	6.26	1-11 3/8
10 x 12	5.69	2-11 1/4 x 1- 5 3/8
16	6.20	1- 9 3/8
20	6.77	2- 1 1/8

The 9 x 10 and 9 x 18 are adapted for use in Block Walls by forming a cement sill at bottom of opening to take up the extra height.

We can furnish a complete list of sizes and designs that can be shipped promptly from factory.

## GABLE FRAME AND SASH

## CRAW-FIR-DOR

UPWARD ACTING GARAGE DOOR UNIT

Easily and quickly installed and without complicated assemblies, the Craw-Fir-Dor eliminates costly subsequent service charges. No cutting or trimming for installation is necessary, since doors are prefitted.

See opposite page for Door designs.

### MAXIMUM SATISFACTION

The Craw-Fir-Dor is a new foolproof, sturdy, garage door that's manufactured from durable Douglas Fir, simple to operate, easy to install, priced so that anyone who has a car can afford one.

### LONG-LIVED

Each unit consists of a pair of prefitted, factory drilled Douglas Fir doors, which are made durable by nature, and as strong and rigid as only this world-famous Pacific Northwest wood can make them.

### ONE UNIT

Craw-Fir-Dor comes to you as one unit in one size 8'-0" x 7'-0"—complete with fir door and the hardware including locking device.

### SHIPPING WEIGHTS

	No. 38	Nos. 39 & 40
A pair of Craw-Fir-Dors prefitted and factory drilled	75 lbs.	92 lbs.
A package containing a complete set of the hardware	63 lbs.	63 lbs.

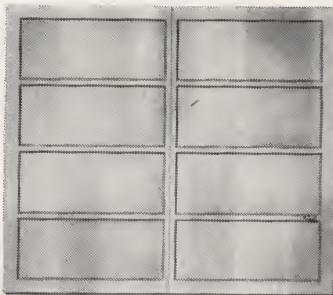

**TOTAL WEIGHT OF ONE UNIT** about 138 lbs. 155 lbs.

### PRICE PER UNIT

A Unit includes a pair of prefitted factory drilled garage doors, and one package containing all necessary hardware, including locking device.

Size

	No. 38	Open	Glazed	No. 40
8-0x7-0 1 $\frac{3}{8}$ "	\$34.50	\$36.00	\$37.52	\$36.00

**CRAW-FIR-DOR**

DESIGN No. 38

**SIMPLICITY**

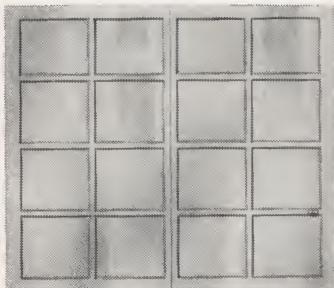

All the hardware necessary for complete installation comes in one compact carton with instructions. Doors are predrilled. No fine adjustments to be made—anyone can install it quickly.

DESIGN No. 39

**ADAPTABILITY**

Craw-Fir-Dors require two inches headroom and only two inches sideroom; they are almost universally adaptable. No expensive alterations are necessary for replacing old doors.

DESIGN No. 40

**PLUS FEATURES**

Safety margins for all hardware in excess of requirements; beauty of design; quiet in operation; permanence of construction; no waste clearance space necessary; unobstructed opening in width and height; and weatherstripped to prevent rattling, warping and sagging.

For prices of complete unit, see opposite page.

SQUARE—NOT TAPERED

K. D.

## ASSEMBLING OF THIS COLUMN IS SIMPLE

Each knocked-down Column is conveniently packed in a compact bundle containing four sanded side members, and two sets of sanded and accurately mitered skirting for trimming the top and bottom of the shaft. Each bundle is strapped with galvanized iron bands, wrapped in heavy kraft paper. Each unit is then labeled to indicate its size.
